7. Cheque Collection policy -Inland

- I. Keeping in view the technological progress in payment and settlement systems and the qualitative changes in operational systems and processes that have been undertaken by a number of banks, RBI has observed that prescription of a single set of rules may not be appropriate.
- II. Pertinently, in most countries banks are obliged to develop their own individual policy/ procedures relating to collection of cheques and also provide due disclosures to the customers on the bank's obligations and the customers' rights.
- III. Hence, efficiencies in collection of proceeds and providing funds to customers in time are best achieved through a spirit of competition among the banks rather than through issue of guidelines by RBI.
- IV. The withdrawal of the earlier guidelines on immediate credit of Local / Outstation instruments, the relative time frame for collection of such instruments and interest payment for delayed collection by RBI was expected to enable the market forces of competition to come into play to improve efficiencies in collection of cheques and other instruments.
- V. This cheque collection policy of the Bank is a reflection of our on-going efforts to provide better service to our customers and set higher standards for performance. 4. Cash letter services

4.1 Under this service, clean instruments payable in USA are forwarded to the local representative offices of Nostro Correspondent Banks in a pre-printed serialized deposit tickets provided by them for onward movement of images of the instruments to their US offices.

4.2 This system represents the most common means of paying the proceeds of a cheque worldwide, as it is less work-intensive and usually less costly than the other system and is usually free of charge. In this system, immediate credit is given to the nostro account subject to final payment i.e. the nostro account is credited immediately under reserve upon receipt of instruments and are subsequently sent to the drawee banks for realization. Under this system, normally funds are being credited to the nostro account within 7 to 10 days from the date of handling at branch level. There is a cooling period/fall back period of 21 days prescribed to take care of the cheque return practices in US and hence credits are available to customers taking into account the cooling period also. However, in case of forged endorsements, material alteration, counterfeit etc, the fall back period extends up to 1 year for altered cheques, 3 years for frauds and 7 years for Treasury cheques. Therefore, the bank runs a potential credit risk, in case the cheque is returned.

4.3 Branches may part with the amount only after expiry of the reserve period except for very valued customers where the branch is confident of recovering the amount, in case of return of the instrument.
