Finance Charges are payable at the monthly interest rate on all transactions, including unpaid EMI instalments, from the date of transaction in the event of the Cardholder choosing not to pay his balance in full, and on all cash advances taken by the Cardholder, till they are paid back.

If the Cardholder makes partial or no payment of Total amount due(TAD) before Payment due date(PDD); i.e. the Customer has outstanding balance from previous months and in the current month, full payment of Total amount due is made before Payment due date then Finance charges will be levied on the closing balance till the payment date as illustrated hereafter.

3. Illustrated example for interest calculation:

Where partial payment has been made against previous statement outstanding, interest is charged on the balance carried forward:
For example, From Bill generated on 20.10.2011, Rs 5000/- is the outstanding amount, carried over to the next bill 20.11.2011.
Payment of Rs 3000/- is received on 30.11.2011. Fresh Transaction of Rs 4000 on 11.12.2011 interest will be levied as follows:

Sl.No.	Details	**Applicable interest rate
1.	Int. on Rs 5000 (c/f balance)	From 20.11.2011 to 30.11.2011
2.	Int. on Rs 2000 after appropriation of Rs.3000 recd. on 30.11.11	From 01.12.2011 to date of payment
3.	Int. on Rs 4000 being fresh transaction on 11.12.2011	From 11.12.2011 to 20.12.2011

** Int. will be provisionally calculated up-to payment due date and based on actual payment date, refunded in the next bill.

• Charges in case of default:

- **Non-payment of 'Minimum Amount Due':** Non-payment of 'Minimum Amount Due' as mentioned in the Billing Statement, within the Payment Due Date will attract levy of Late Fee Charges of Rs.250/- besides blocking of card; card will be unblocked only on payment of 'Minimum Amount Due'. Late Payment fee will be applied only when a credit card account remains 'past due' for more than three days. Late payment charges is computed from the payment due date mentioned in the credit card statement.

If the Customer chooses to pay only the Minimum amount, finance charges as applicable for purchases will be levied from the date of purchase to the due date given in the Billing statement. Making only the Minimum payment every month would result in repayment stretching over subsequent months with applicable financial charges thereon; for instance, if the credit card is

used for transactions of Rs.5000/- and if minimum amount alone (say 5%) is repaid every month, this will result in stretching repayment over 6 years.

➤ **In Case of NPA:**

- Default in payment of 'Credit Card Dues' will result in blocking of Card and the card may be unblocked only on payment of Total Amount Due.

- **Reporting in CIC-** The bank reports a credit card account as 'past due' to credit information companies (CICs) only when a credit card account remains 'past due' for more than three days. The number of 'days past due' is computed from the payment due date mentioned in the credit card statement.
